

OBJECTIVES

TruTeq overall Health and Safety objectives are to prevent accidents, injuries and occupational ill health at all locations under the company management control.

It is specifically TruTeq objective that the following minimum control arrangements are in place at all company locations.

- Employee access to and basic understanding of the OHS policy document.
- Documented responsibilities for Health and Safety work.
- Up to date Health and Safety risk assessments and fire risk assessments.
- The provision of necessary Health and Safety information, instruction and training.
- The provision and use of personal protective equipment (PPE).
- Arrangements for emergency response / evacuation. First aid and occupational health.
- Documented procedures / safe systems of work where necessary to establish and maintain a safe working environment.
- Health and safety control arrangements for contractors and visitors.
- Communication and consultation with employees on Health and Safety issues.
- Monitoring, investigation and reporting of any incidents, accidents or occupational ill health.
- Corrective and preventive actions where any incidents, accidents or occupational ill health occurs.
